Minim Healthcare End of Life Waste Disposal Policy

Returns

Minim Healthcare Ltd accepts, by arrangement, the return of goods supplied to customers at the end of their useful life.

The company will arrange, with the relevant manufacturer, and according to the relevant guidelines, the safe, ethical disposal and, where possible, recycling of these products.

Waste Policy

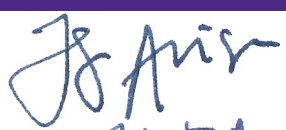

Our waste policy and practices aim to:

- comply with waste legislation
- change business practices or processes to minimise our waste
- use waste management options at all stages of the supply chain
- reuse and recycle waste - using specialists where appropriate
- separate different types of waste
- ensure storage facilities are suitable for different waste types
- train staff who handle different types of waste on good waste management
- make sure all staff understand our waste management policy

ISO 9001

This policy is documented within Minim Healthcare's ISO 9001 quality management system as a standalone policy.
Minim Healthcare does not operate an environmental management policy.
